# Project Description

Stage I

Stage II

Contingency Plan

A nighttime photograph of a park or urban walkway. A paved path made of light-colored bricks curves through the scene. On the right side of the path, there are several modern, black, rectangular streetlights with white light fixtures. The trees are lush and green, and their leaves are illuminated by the streetlights, creating a warm, golden glow. In the background, more streetlights and the faint outlines of buildings are visible against the dark night sky. A wooden bench is positioned on the right side of the path. The overall atmosphere is serene and well-lit.

# Conclusion
